# About

Alkatech, founded in April 2015, is mainly focused on hardware and IT support and services. We are involved in providing technical solutions and assistance to our clients. Alkatech has gained some level of expertise in the hardware and IT support domain since it has been operating for almost 6 years now.

Netcron Technologies Pvt Ltd, founded in June 2021, However, since it is also a technology company, which provides technical solutions to its clients. It's impressive that Mr. Swami Tambe has founded two companies in the technology industry. Starting a company takes a lot of hard work and dedication, and it's admirable that he has been able to do it twice.

## MISSION

Empowering growth and success through innovative technology solutions. Committed to serve exceptional business intelligence solutions to business communities.

## VISIONS

To be a global leader in technology innovation, delivering transformative solutions that shape the future. Enabling people and businesses to thrive in a digital world.
